

SANKESH M D

Mandya, Karnataka, India

☎ +919980921810 ✉ sankeshgowda20@gmail.com 🌐 in/sankesh-m-d-6a87a225a 🌐 [website](#)

SUMMARY

Motivated data science and analytics with experience in building machine learning models, dashboards. Skilled in Python, deep learning, and problem-solving, with the ability to convert data into actionable insights. Equipped with knowledge of financial concepts including banking, investment bank, portfolios, asset classes, derivative products, and wealth management, delivering accurate and reliable outcomes.

EDUCATION

Bachelor of Engineering in Artificial Intelligence & Machine Learning **JULY - 2025**
Global Academy of Technology - Bangalore • CGPA : 7.65

Higher Secondary Education (12th) **JULY - 2021**
Government Independent PU College, Bharathinagar - Mandya District • Percentage : 71.33%

Secondary School Education (10th) **APRIL - 2019**
Government High School, Madarahalli - Mandya District • Percentage : 78.88%

INTERNSHIP

Full Stack Web Developer Intern **October 2024 – November 2024, Bengaluru**
Technofly Solution
• Developed dynamic web applications using HTML, CSS, Flask, and SQL.
• Improved website responsiveness and user experience.
• Integrated front-end and back-end features for enhanced functionality.

PROJECT

DONATENOW: Full-Stack Donation Platform
Independent Project • October 2025 - December 2025
• Built a donation platform with secure login, cause creation, and payment tracking for smooth operations and transparency.
• Integrated Razorpay for UPI/cards/wallets with responsive React + Tailwind CSS and Added analytics tracking with real-time updates.
• **Skills Used:** React.js, Node.js, Express.js, SQLite, Razorpay API, JWT, Tailwind CSS, Git/GitHub.

IMAGIFY: Turning Words into Visuals
Global Academy of Technology • August 2024 - April 2025
• Designed a text-to-image AI system generating visuals from prompts using Diffusion Models and Hugging Face Transformers .
• Integrated deep learning models (Diffusion, GANs) for context-aware synthesis.
• **Skills Used:** Python, Deep Learning, Diffusion Models, Hugging Face Transformers, Flask, HTML, CSS.

Plant Disease Detection System
Global Academy of Technology • December 2023 - April 2024
• Developed a CNN-based model using TensorFlow/Keras with 92% accuracy on test data for disease classification.
• Built a Flask web app with prediction + remedy suggestions, reducing manual detection time by 70%.
• **Skills Used:** TensorFlow, Keras, Python, Flask, NumPy, Pandas, Matplotlib.

SKILLS

Programming Languages: Python, Java, C

Machine Learning: AI, ML Algorithms, Deep Learning

Data Visualization: Power BI, Matplotlib, Excel

Data Engineering: Pandas, NumPy. **Databases:** SQL, Cloud Computing.

BFSI skills : Investment Banking, Collective investment Vehicles, Wealth Management, Underlying Assets, Derivative Products

Behavioral Skills: Problem-Solving, Time Management, Fast Learner, Team Collaboration, Adaptability, Communication
