SUMMARY

AI and ML enthusiast with a strong foundation in programming, web development, data science, and data analytics. Skilled in developing and deploying machine learning and deep learning models, creating data-driven dashboards, and building user-friendly AI applications. Passionate about leveraging advanced analytics and artificial intelligence to deliver impactful business insight and intelligent solutions.

EDUCATION

Bachelor of Engineering in Artificial Intelligence & Machine Learning

Global Academy of Technology • Bangalore • 2021 – 2025 • CGPA : 7.65

Higher Secondary Education (12th)

Government Independent PU College, Bharathinagar • Mandya District • 2021 • Percentage : 71.33%

Secondary School Education (10th)

Government High School, Madarahalli • Mandya District • 2019 • Percentage : 78.88%

INTERNSHIP

Full Stack Web Developer Intern

Technofly Solution

October 2024 – November 2024, Bengaluru

- Developed dynamic web applications using HTML, CSS, Flask, and SQL.
- Improved website responsiveness and user experience.
- Integrated front-end and back-end features for enhanced functionality.

PROJECT

IMAGIFY: Turning Words into Visuals

Global Academy of Technology • August 2024 - April 2025

- Designed a text-to-image AI system generating 90% accurate visuals from text prompts using Diffusion Models and Hugging Face Transformers.
- Integrated deep learning models (Diffusion, GANs) for context-aware synthesis.
- Designed an intuitive Flask-based web interface for user interaction.
- **Skills Used:** Python, Deep Learning, Diffusion Models, Hugging Face Transformers, Flask, HTML, CSS.

Plant Disease Detection System

Global Academy of Technology • December 2023 - April 2024

- Developed a CNN-based model using TensorFlow/Keras with 92% accuracy on test data for disease classification.
- Built a Flask web app with prediction + remedy suggestions, reducing manual detection time by 70%.
- **Skills Used:** TensorFlow, Keras, Python, Flask, NumPy, Pandas, Matplotlib, Excel.

SKILLS

Programming Languages: Python, Java, C

Web Development: HTML, CSS, Flask

Machine Learning: Tensorflow, PyTorch, NLP, CNN, ML Algorithms, Deep Learning

Data Visualization: Power BI, Matplotlib, Excel

Data Engineering: Pandas, NumPy. **Databases:** SQL

Behavioral Skills: Problem-Solving, Time Management, Fast Learner, Team Collaboration, Adaptability, Communication

CERTIFICATIONS

Machine Learning for Data Science – IBM

Getting Started with Enterprise Data Science – IBM

TechA CompTIA Network – Infosys Springboard

Software Testing Tutorial – Great Learning
